

## Reel Cleaner Cassettes

The OPTIPOP R is a cassette style fiber optic connector cleaner system that can be refilled for reducing cleaning costs. It uses a densely woven micro-fiber cleaning fabric to remove harmful contaminants off of the ferrule end face.

The OPTIPOP R cassette cleaning tool will accommodate all single fiber connections. Various versions of the OPTIPOP R cassette cleaning tools are designed specially for cleaning multi-fiber connector systems including the MTP® Brand Connectors, standard MPO and MTRJ connectors for both singlemode and multimode connectors. The customized OPTIPOP R cassette cleaning tool will accommodate the alignment guide pins on male MT ferrules. The OPTIPOP R cassette cleaning tool is ideal for field use at FTTX work sites and accommodates the OptiTap™ connector housing making it ideal for technicians that need to clean OptiTap™ plug connectors on drop cables.

The anti-static cloth material produces a pristine fiber tip and minimizes contaminant attraction. The cleaning fabric is pre-washed and produces less than 70 pcs/CFM of particles > 1mm in size, making this system excellent for use in any production environment including clean rooms.

### Features/Benefits

- Replacement reels are easy to install and reduce the cost per cleaning
- 400+ Cleanings
- Eliminates electrostatic charge
- The washed, ultra clean micro-fiber cloth captures debris and other contamination
- The cloth is robust, it does not fray or leave any fibrous materials behind
- The most cost effective high-end cleaning solution available

### Applications

- FTTX work sites installing OptiTap™ drop cables
- Data center installation and preventative maintenance
- Central office and head end new equipment installations and preventive maintenance
- Production facilities that terminate fiber optic cable assemblies
- Testing and measuring laboratories using optoelectronic equipment
- Any application that uses unmated fiber optic connectors

Part Number	Description
CLN0409-2	Reel Cleaner, suitable for all connector types except male MT connectors
CLN0409-3	Reel Cleaner, suitable for male MT's (with guide pins), such as male MTP/MPO
CLN0409-4	Reel Cleaner, suitable for male MT-RJ ferrules
CLN0409-5	2-slot Reel Cleaner, suitable for all connector types except male MT connectors
CLN0409-6	Reel Cleaner Refills (Pack of 6)
