

Card Cleaners

The dry cloth card cleaners are one of the most advanced fiber tip cleaning products available today. The unique, densely woven micro-fiber cloth provides superior cleaning performance while minimizing static charge, ensuring that debris is not instantly attracted back onto the connector end-face like some other cleaning tools.

Today's optical networking components requiring minimal insertion loss and back reflections demand quick and reliable cleaning solutions. A connector end-face that contains even trace amounts of debris can adversely affect network performance and can possibly even cause permanent damage to other critical network components.

Card cleaners offer a unique, cost effective solution for all your fiber optic connector cleaning needs.

KEY FEATURES

Card Cleaner with LC connector

- USES SAME HIGH PERFORMANCE CLEANING MATERIAL THAT IS USED IN REEL CLEANER CASSETTES
- DESIGNED TO MINIMIZE STATIC ATTRACTION
- MICRO-FIBER COMPOSITION HAS EXCELLENT ABSORBENCY TO REMOVE OIL AND RESIDUE
- CUSTOM MICRO-FIBER WEAVE PATTERN IS DESIGNED TO CAPTURE FINE DUST PARTICLES
- COST EFFECTIVE CLEANING SOLUTION
- ACCOMMODATES ALL STANDARD 1.25MM AND 2.5MM FERRULES SUCH AS LC, SC, ST AND FC
