

CARD CLEANERS

The dry cloth card cleaners are one of the most advanced fiber tip cleaning products available today. The unique, densely woven micro-fiber cloth provides superior cleaning performance while minimizing static charge, ensuring that debris is not instantly attracted back onto the connector end-face like some other cleaning tools. Today's optical networking components requiring minimal insertion loss and back reflections demand quick and reliable cleaning solutions. A connector end-face that contains even trace amounts of debris can adversely affect network performance and can possibly even cause permanent damage to other critical network components. Card cleaners offer a unique, cost effective solution for all your fiber optic connector cleaning needs.

KEY FEATURES

- uses same high performance cleaning material that is used in reel cleaner cassettes

- designed to minimize static attraction

- microfiber composition has excellent absorbency to remove oil and residue

- custom microfiber weave pattern is designed to capture fine dust particles

- cost effective cleaning solution

- accommodates all standard 1.25mm and 2.5mm ferrules such as LC, SC, ST and FC

ORDERING INFORMATION

Part Number	Description
CLN0409-7	Card Cleaner with 10 cards (120 cleanings)
CLN0409-8	Spare refills for Card Cleaner (100 sheets)
