

# CARD CLEANERS

The dry cloth card cleaners are one of the most advanced fiber tip cleaning products available today. The unique, densely woven micro-fiber cloth provides superior cleaning performance while minimizing static charge, ensuring that debris is not instantly attracted back onto the connector end-face like some other cleaning tools. Today's optical networking components requiring minimal insertion loss and back reflections demand quick and reliable cleaning solutions. A connector end-face that contains even trace amounts of debris can adversely affect network performance and can possibly even cause permanent damage to other critical network components. Card cleaners offer a unique, cost effective solution for all your fiber optic connector cleaning needs.

## KEY FEATURES

uses same high performance cleaning material that is used in reel cleaner cassettes

designed to minimize static attraction

microfiber composition has excellent absorbency to remove oil and residue

custom microfiber weave pattern is designed to capture fine dust particles

cost effective cleaning solution

accommodates all standard 1.25mm and 2.5mm ferrules such as LC, SC, ST and FC

## ORDERING INFORMATION

Part Number	Description
CLN0409-7	Card Cleaner with 10 cards (120 cleanings)
CLN0409-8	Spare refills for Card Cleaner (100 sheets)
